

ROUGH TERRAIN FORKLIFT TRAINING

With over a decade of industry experience, **Safety Equipped, Inc.** offers Employers and their Employees a comprehensive Rough Terrain Forklift Training Program (Class 7), regardless of your employee's level of operating proficiency.

Course Description:

This program is designed to provide the forklift operator with an understanding and awareness of forklift operations and hazards. This training program meets OSHA's new training requirements for forklift operations (OSHA 1910.178). The course consists of classroom study (course manual provided), a written exam, video presentation, on-site hazard assessment, equipment inspection and a "hands on" performance evaluation of each operator.**

Participants will receive a wallet card. A Certificate of Completion valid for three (3) years upon successful completion of this course. The customer will receive class rosters and course evaluations. In some states (MA & RI) this operator safety training certificate is a pre-requisite to obtaining a hoisting license.

Minimum Class Size: 4 students

Cost: Call for Pricing

**Must have a Rough Terrain Forklift on site for the hands-on training portion of this course.
